Dolphin Capital Finds Sweet Spot in the Confections Industry

Dynamic Confections sells subsidiary, Bogdon Candy Co.

Salt Lake City, Utah – August 10, 2009 – Bogdon Candy Co., a subsidiary of Dynamic Confections, sold this week to a New York based confections company, making this a sweet deal for both Dolphin Capital and its portfolio company, Dynamic Confections.

Bogdon's famous Reception Stick®, a hand-rolled hard candy stick dipped in chocolate, is currently sold throughout the US. Each day in the Kansas City, MO manufacturing plant, thousands of these sticks are spun and led through a waterfall of chocolate before getting packed and shipped to department stores, wedding receptions, restaurants and boutiques.

The Bogdon family has been making these delectable treats for close to 65 years and partnered with Dynamic Confections in 2007 to help them increase distribution. Taz Murray, CEO of Dynamic said "This has been a great partnership with the Bogdon family and we are confident that the acquirer, Richardson Brands, will continue the momentum we helped to create."

Dynamic Confections brought on private equity firm Dolphin Capital as a partner in 2007. From here, Dolphin will continue to help Dynamic layer on strategic acquisitions and Dynamic will continue to layer on something different - chocolate, and lots of it, to its Mrs. Fields boxed chocolate line and other

confections products manufactured under its subsidiaries, Maxfields (Salt Lake City, UT), Kenkraft (Alpine, UT) and Dynamic Chocolates (Vancouver, BC).
